01

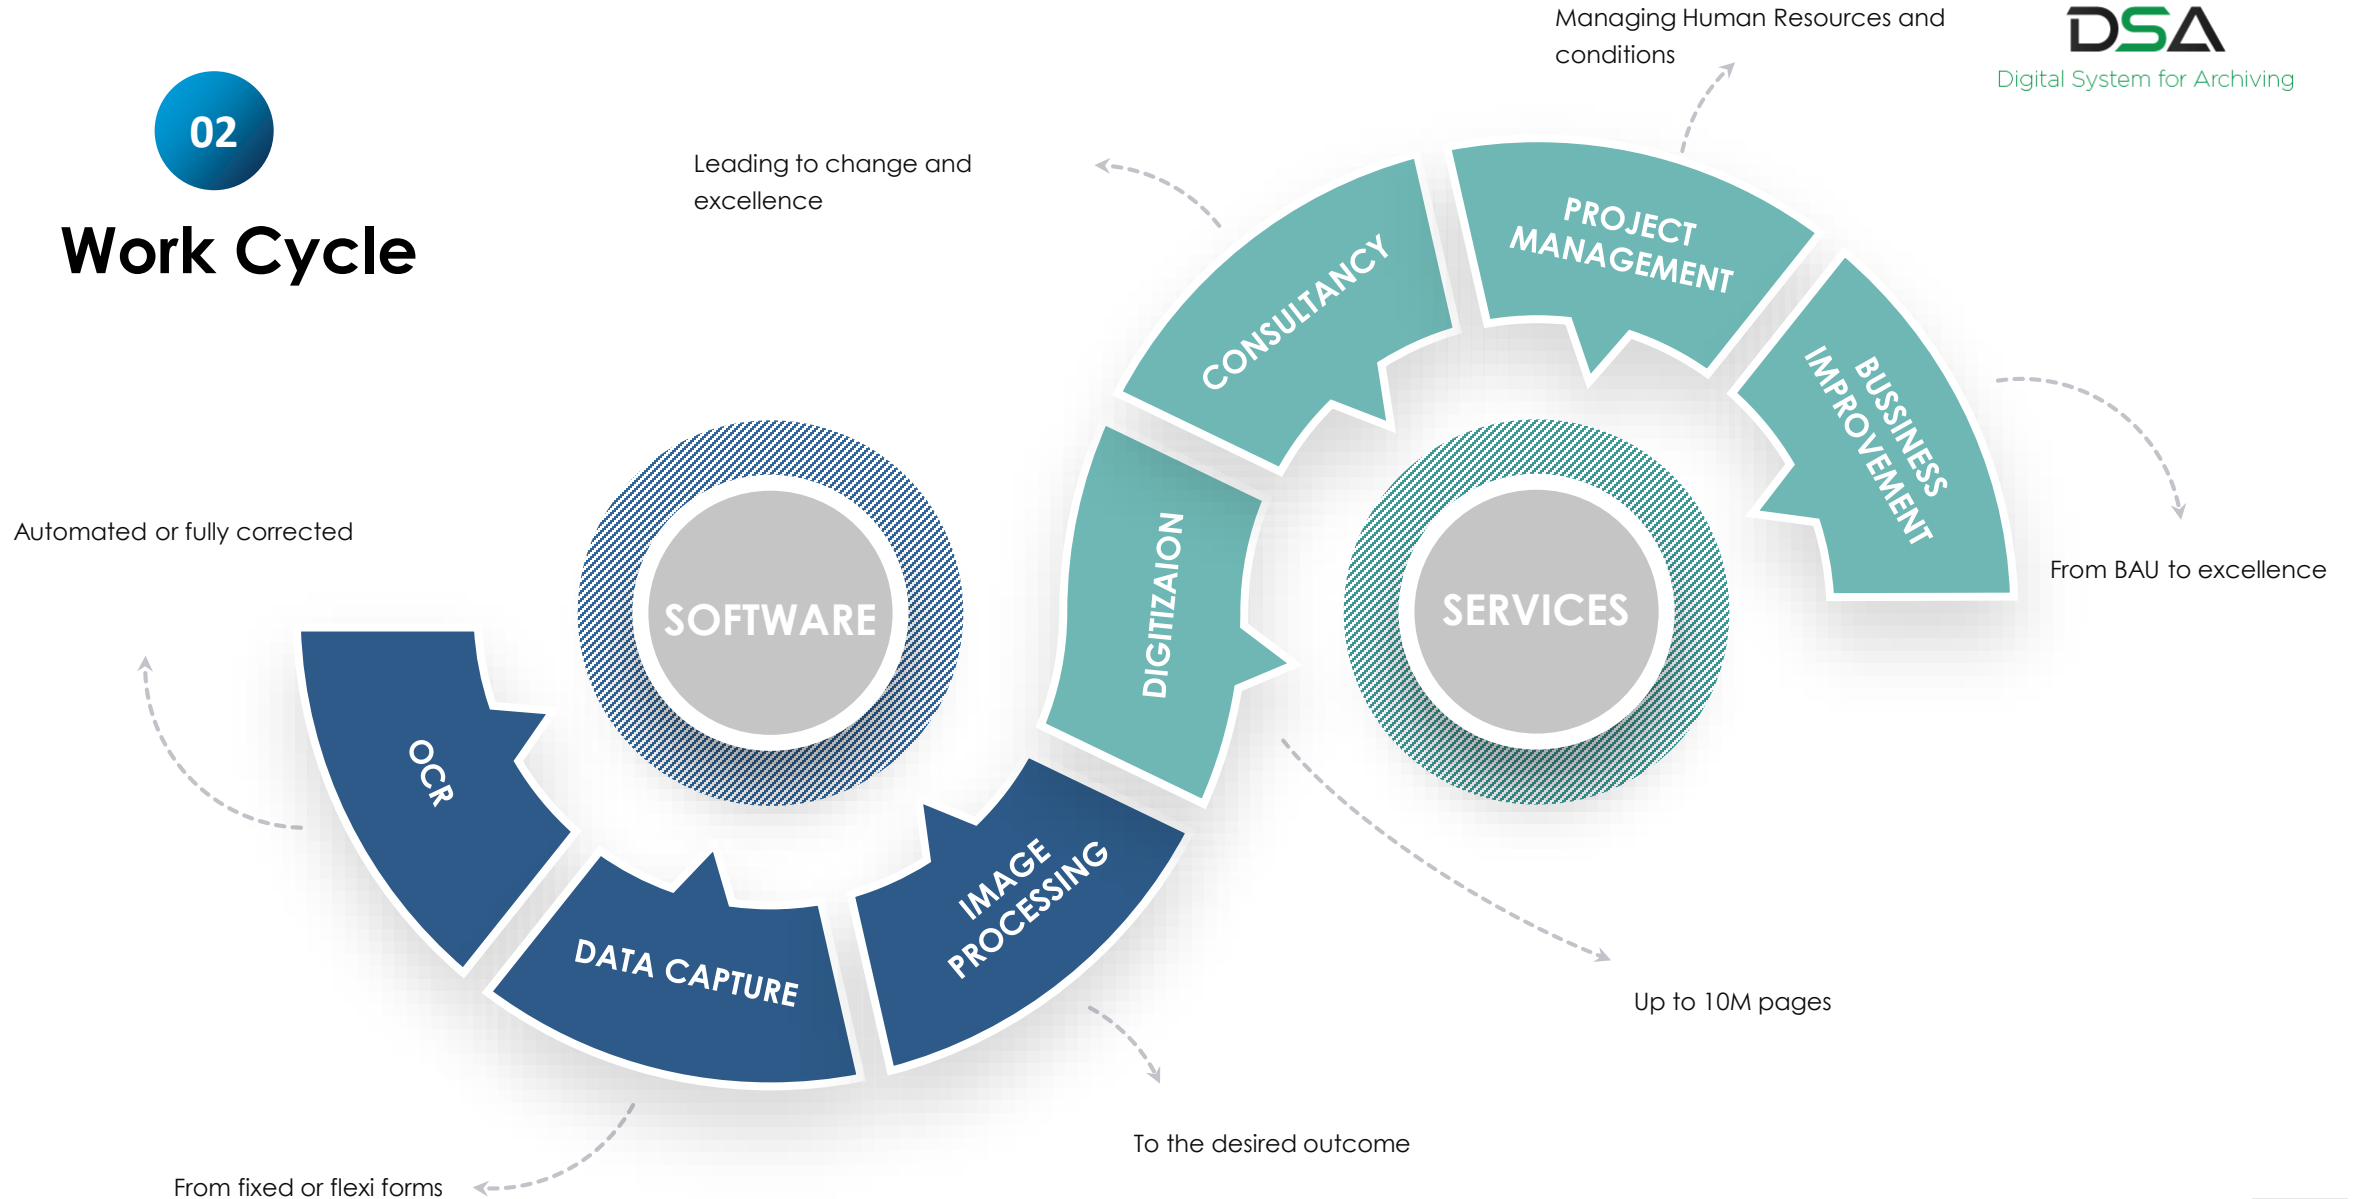

Our Values & Mission

The Company has been in operation since 2015. We offer integrated solutions in digitization, physical and electronic archive management. We have experience in managing archives in excess of **10.000.000** pages. Our Company applies the quality assurance system not just in our interaction with customers but also within the company's procedures. Our aim is to continue its successful presence in the European market and it strives to be the leader in the fields of technology. We also want to build a corporate culture that is transparent and honest to benefit not just our end users but also those who've worked hard to build our fame.

Our fame comes from our satisfied customers which is our ultimate goal.
